

TERM-seal™  
**PRM ACTIVE**  
Cord & Capping Strip

**Continuous physical termite barrier for all types of construction**

TERM-seal™ PRM Active Cord & Capping Strip (poly reinforced membrane) is a specialised, termite resistant and waterproof sheeting containing 0.1% Bifenthrin as the active constituent. Manufactured by impregnating TERM-seal™ Multi-Purpose Active Coating (termite resistant and waterproof compound) into a poly fibre industrial fabric.

**PRODUCT OVERVIEW**

- Applications for footing slabs
- Monolithic slabs with brick coarse step downs
- Infill slabs
- Ant capping to bearer and joist construction
- A continuous physical/chemical barrier

Can be used in conjunction with:-

TERM-seal™ Ura-Fen Major, TERM-seal™ Multi-Purpose Active Coating and TERM-seal™ Sealant Active to create our 3 in 1 premium barrier. TERM-seal™ Sealant Active for Ant Capping, Strip Shielding and Perimeter Timber Framed Clad Homes.
